

# WAYNE HEINLEIN

## Transportation Dept.

When we arrived in the auto shop, Mr. Heinlein was hard at work inspecting one of the new school buses. He also shared with us his binder of procedures he must follow each time he does maintenance on a school bus. We appreciated seeing the behind the scenes work it takes to get our students to school safely!

~ HR Team

“Wayne has worked for HCSB since he was 18yrs old. He takes pride in his work, and it shows! He is one of two inspectors for the entire school bus fleet. When he isn’t inspecting buses, he is helping the newer mechanics learn efficient ways to diagnose and fix our buses. He also helps with “stuff the bus” and anything else we would ask him to do.”
