

# ROBIN PASELIO

## Hernando High

Upon giving her the award, the entire cafeteria clapped and cheered. Some may not have known what the award was for, however they knew it was well deserved, nonetheless.

- HR Team

"Ms. Pselio is such an amazing teacher! Not only does she teach math, but she is the cheerleading coach and is often spearheading fundraisers and other events. Last school year, as the senior class sponsor, I've witnessed her handle sooo many fundraisers, events and even organized a very successful senior class trip to Washington, D.C. I witnessed how wonderful she was with the students. Never seen her lose her temper or patience. She has such an amazing temperament, yet never loses control or the respect of her students. This year, despite not being the senior sponsor, she is still busy organizing the senior trip to D.C.! That's how wonderful she is. AND, on top of that, she recently took over the Hernando High School Facebook page, posting some of the amazing happenings and recognizing students/staff on the social media page! I oversee all the social media for the District, and I think she's doing a great job.

Math teachers typically have it rough, since many students do not like math and therefore give a hard time to their math teachers. But years ago, when my son had Ms. Pselio for Geometry, she was definitely one of his favorite teachers. Not only was she a good teacher, but she was always friendly and sincerely interested/concerned about her students. I think she is a great asset to HHS and just thought she deserves a little recognition!"
